**RCC Selected by the Central Virginia Radio Communications Board  
for Radio System Upgrade**

Woodbridge, NJ (June 15, 2011)- RCC Consultants, Inc. has been selected by the Central Virginia Radio Communications Board to upgrade the area's current radio system. The current system services the public safety and government sectors of Amherst and Bedford Counties, Bedford and Lynchburg Cities, the Blue Ridge Regional Jail Authority, The Region 2000 Services Authority, and the Greater Lynchburg Transit Corporation.

RCC will assist the Board in selecting and procuring upgraded equipment and improving the current 800 MHz radio system. The Consultants will provide recommendations for system architecture, site locations and frequency changes in order to enhance system operation and improve the region's radio system coverage. RCC will also help determine the appropriate level of regional interoperability based on the overall system architecture and roaming capabilities.

RCC will provide procurement support to ensure the Radio Board receives the best value for their public safety and government sector's emergency communications.

**About RCC Consultants, Inc.**

RCC Consultants, Inc. is a global telecommunications consulting, engineering and integration firm. A leader in the public safety industry since 1983, RCC specializes in the design and implementation of radio communications systems, microwave and fiber optic systems, broadband, intelligent transportation systems and emergency telephone systems, as well as the design of communications centers, tower sites and monitoring facilities.
