RCC's Margaret Lyons Named Senior Member of the IEEE

Woodbridge, NJ (November 30, 2011) – RCC's Margaret Lyons was elevated to Senior Member with the IEEE, the world's largest professional association for the advancement of technology. Fewer than 8 percent of the IEEE's 400,000 members achieve this prestigious level. Members who receive this honor are recognized for their significant professional technical accomplishment.

Ms. Lyons has been a member of IEEE for 26 years and an employee of RCC since 1986. She is a licensed professional engineer in six states and achieved PMP certification from the Project Management Institute.

As Director in the Northeast Region for RCC, she provides project management, radio system consulting and engineering services. Her expertise is in the design, specification, procurement and implementation of two-way radio systems, paging systems and microwave radio systems.

About RCC Consultants, Inc.

RCC Consultants, Inc. is a global telecommunications consulting and engineering firm. We have assisted public safety agencies with their communications needs since 1983, and specialize in the planning, design and implementation of interoperable radio systems, microwave and fiber optic systems, broadband, enterprise telecommunications systems, communications centers, tower sites and monitoring facilities.

On the operational side, we have created hundreds of interoperable communications plans, governance plans and Standard Operation Procedures (SOPs) for cities, counties, regions and states. On the technical side, we have managed more than 4,000 communications and information systems projects, ranging from reconnecting subway communications at the World Trade Center to designing the requirements for some of the country's largest interoperable radio systems, including Philadelphia and Houston.
